Central Chinese Minister - Dr. Lablanc's Committee & opponents  
are now coming up against the same difficulties  
as we have met with in our own country - the  
people are not satisfied with the work done by the  
Government & they are anxious about the results of the  
present war.

The Chinese are very suspicious of the  
French Government & they are afraid that  
the French will be instrumental in getting  
the Chinese to abandon their rights  
and to give up their independence. They  
are also suspicious of the Chinese  
Government & they are afraid that  
the Chinese will be instrumental in getting  
the French to abandon their rights  
and to give up their independence.

on the first occasion when I hope to see you again  
in the office of the Secretary of State. I will bring you up to date  
as regards the information which has been gathered by our  
agents & your Agent for reporting purposes, & also  
the latest information sent from the Consuls.  
In view of your frequent visits to the District of Columbia  
you will have opportunities to learn more  
of the want of money for repairing the buildings  
and equipment of the Government. As far as possible  
we are trying to meet the expenses of these  
Buildings by placing all of the available funds  
to the best advantage of the Government.  
I am giving you my best advice and  
will do my best to help you in your  
work.
